MS32 Manure Spreader Control System

Plug-and-play spread-rate control for truck and trailer manure spreaders, now with audio warning.

OVERVIEW

The MS32 is an advanced control system for truck- and trailer-type manure spreaders. Operators set the spread rate by adjusting floor speed and get live feedback on the display. Push-button control covers PTO, beater, floor speed and E-stop, and on-board diagnostics flag faults before they cause downtime. It fits most spreaders on the market with labeled, sealed connectors.

- Spread-rate control via floor speed
- On-board diagnostics
- E-stop, overload protection, audio warning
- Fits most spreaders, plug and play

SPECIFICATIONS

Controls	Display, PTO on/off, beater on/off, floor speed, E-stop, display buttons
Vehicle interface	J1939 connector, battery and ignition
Hydraulics	Labeled hydraulic valve controller and solenoid connectors
Connectors	IP67 male/female, labeled sensor connectors
Safety	Emergency stop, overload protection, warning indicators, audio warning
Diagnostics	On-board fault diagnostics; supports remote/virtual maintenance
Options	GPS data logging, GPS variable-rate control, cloud integration

TYPICAL APPLICATIONS

Truck-mount manure spreaders | Trailer manure spreaders
