Smart Sprayer Control System

Complete control of sprayer hydraulics, nozzles, cab HVAC and navigation, with variable-rate spraying.

OVERVIEW

Our sprayer package is a complete system. It covers the master controller, cab display, joystick controls, CAN sensors, GPS speed and positioning, cameras and the wiring harness. It controls sprayer hydraulics, nozzles, cab HVAC and navigation. Advanced options add prescription-based, variable-rate spraying with overlap protection and full spray logging.

- Variable-rate and prescription spraying
- Electro-hydraulic control
- GPS speed sensing
- Overlap protection and spray logs

SPECIFICATIONS

Core system	Master controller, master display, cab controls, joysticks, wiring harness
Sensing	Liquid sensor (CAN), pressure, temperature, position, GPS speed/positioning
Controlled functions	Sprayer hydraulics, nozzle control, cab HVAC, navigation
Features	Variable-rate control, prescription-based spraying, electro-hydraulic control
Options	Diesel engine controls, radio remote, map-based spray mapping, camera data logging, volume/acre logs

TYPICAL APPLICATIONS

Self-propelled sprayers | Trailed sprayers | Custom applicators
